Subject: Superfast Fibre
To:

Hi,

I hope you are all enjoying your superfast fibre internet! We were all lucky to get our project finished because shortly afterwards Connecting Devon & Somerset signed a new contract with Airband to deliver fibre in our area and that is scheduled for 3 years time. I suspect it will never happen.

Unfortunately the other half of Northleigh is now caught up in this problem, and even though there was fibre provisioned for them by Openreach, they are now being stopped from completing the project. If they ever get started, Airband will have to duplicate 12Km of fibre laid by Openreach, all at taxpayers expense. It is a total waste of money and another example of the bungling incompetence of the bureaucrats at CDS.

Can you spare a moment to help the campaign to get this decision overturned. Follow the campaign on Twitter @NorthleighBroadband. Re-Tweet and "Like" all the posts over the next month. If you are not on Twitter, but have friends or family who are, ask them to follow as well. The more followers they can get, the more it will get noticed by the Politicians and Councillors being lobbied.

Also, there will be an E-Petition being circulated on email and your support will also be appreciated.
